George Wright, AFT 1493 San Mateo Community College

Gray Brechin, UCB historian and writer

Harold Brown, Past president ATU 1555 Bart Workers

Blanca Missé, member of UCB UAW 2865 and SWAT

OEA

UCB

The attack on public education threatens the destruction of education to all working people in California. Millions of students and education workers are being drastically affected from furloughs and layoffs to massive increases in fees making it impossible for working class and poor students from going to school. In urban and poor working class school districts teachers are facing cutbacks on their healthcare and benefits while there is a large increase in the size of the classes making education even more difficult. At the same time the administrators are pushing privatization and charter schools as the solution.

This forum will have education workers and students as well as trade unionists from other industries. The March 4, 2010 day of action to defend public education is not just about education workers and students but all working people.
